TWEET OF THE MONTH

Thanks to all participants for making yesterdays #DiPP workshop on #construction 4.0 a success. See photos <https://t.co/vilvJJKtfs>

Smart CE marking kick-off meeting

The kick-off meeting of the announced CEN Workshop Agreement on Smart CE marking is now confirmed for the 8th of December. The project plan, agenda and registration is available in the [website of CEN...](#)

#Industry4Europe

The Estonian and future Bulgarian and Austrian Chairs of the Council Industry Working Party have officially accepted the invitation to meet the 119 members of the [#Industry4Europe](#) coalition. The Estonian Presidency will present the future COMP Council Conclusions and Presidency Report and the incoming Bulgarian and Austrian Presidencies will share with us their future priorities regarding industrial policy. This meeting will take place in Brussels on 4 December. [Read more...](#)

Level(s) conference and webinar

Following this summer's [publication of Level\(s\)](#), the European Commission launches a two-year testing phase of Level(s). The first year will be dedicated to testing of the methodology while the second year will include the revision of the tool. Should you be considering putting forward a project, the EC invites you to join their 15th November webinar ([registration](#)). The announced 4th December workshop ([registration](#)) will be fully dedicated to support organisation committed to test Level(s). [Read more...](#)

Smart CE marking FAQ

As part of the initiative to implement Smart CE marking, Construction Products Europe has published a list of FAQ to better explain how this project will help the industry in their goal to improve the usability of CE marking and DoP. [Read more...](#)

We will send you very soon a communication to get your support and comments on the concept and of course we are looking forward your participation in the CEN Workshop Agreement.

CEN/TC350 Plenary meeting

CEN/TC 350 plenary meeting took place the 19th October 2017 in Malta. The main topic discussed during the event was the amendment to EN 15804 to align it to the revised M/350 Mandate. The draft will be ready soon for enquiry and contains a good compromise for the industry. [Read more...](#)

EC Fire Information Exchange Platform

More than 80 experts participated in the first meeting of the platform representing Member States and associations. The goal of the EC is to facilitate the debate around fire performance and its relation with CE marking. The 5 "work-streams" will be data collection, exchange of best practices, lessons learned, new products and fire safety engineering (including Eurocodes).
